

Do you know which technologies are developed in **Taiwan**?

Independent 5G Base Station

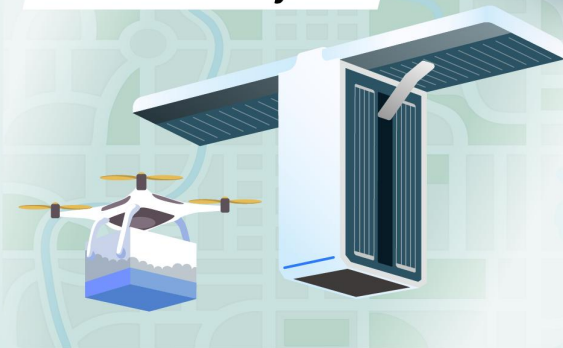

Solid-state LiDAR

AI Perception Technology

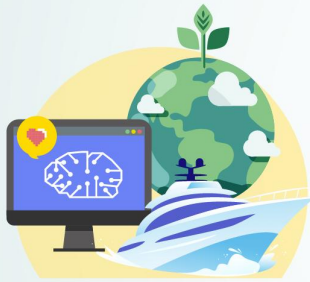

AI anti-drone system

These are
all examples!

These innovative, powerful, and globally pioneering technologies all originate from TIE.

**3 Major
Theme Pavilions**

**"Interactive"
Trade Show**

**Intellectual Property
Consultation**

**#Taiwan Innotech Expo #Ministry Of Economic Affairs #Ministry Of National Defense
#National Development Council #Ministry Of Digital Affairs #National Science And Technology
Council #Ministry Of Education #Academia Sinica #Ministry Of Health And Welfare
#Ministry Of Agriculture #Ministry Of Labor #Ministry Of Environment**

This year is

The era of semiconductors and AI — Taiwan's time

11

Integrating 11 government
ministries and councils

430+

Over 430+
participating companies

20+

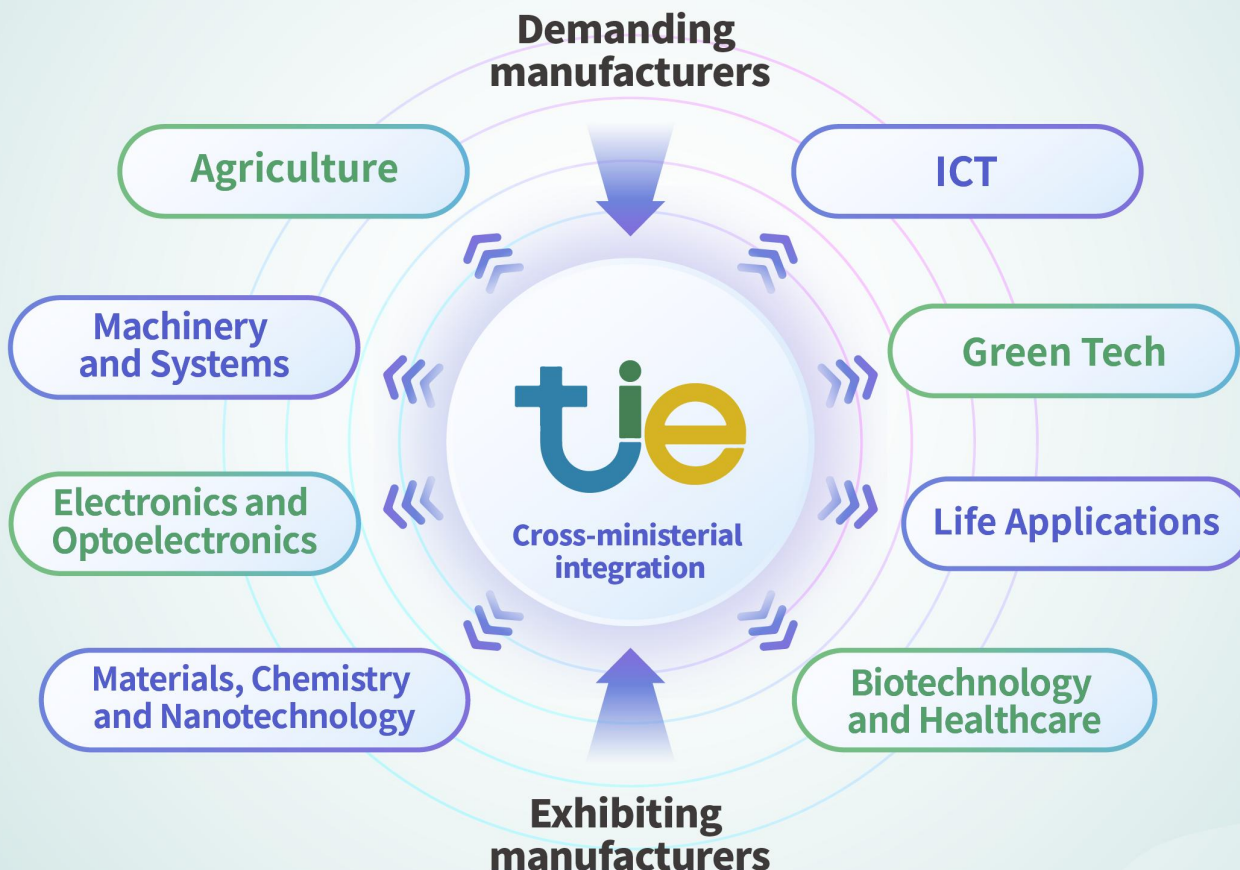

Exhibitors from
20+ countries

1,000+

innovative technologies
on display

Taiwan's resilient economy and entrepreneurial spirit allow us
to showcase thousands of technologies at TIE annually.

Taiwan's scientific research achievements
**Enabling global business opportunities
and driving industrial advancements.**

One-stop exhibition for all resources

Making Taiwan an International R&D Hub

Europe

Poland, Germany, Sweden, UK, Belgium
Czech Republic, Denmark, Netherlands,
Austria, Finland

North America

Canada, USA

Africa and Middle East

Israel

India

Asia

Indonesia, Thailand,
Singapore, Malaysia

Japan, South Korea

Latin America and the Caribbean

Nicaragua, Brazil

**Leveraging Taiwan's R&D and location to connect
with global partners and technologies**

Semiconductors

Sustainability

Creating a sustainable life with net-zero emissions

Suitable groups for exhibition visitors

Aspiring for new technology

- Those interested in technology
- Enthusiastic discussants
- People with entrepreneurial ideas

Making money with new technology

- Startups
- Investment firms
- Large companies
- Investors

Creators of new technology

- R&D personnel
- Technical personnel

In Taiwan, we encourage innovation
